

Ranpak Void Fill Systems...
the Natural Choice

Create Top and Side Void Fill Material from 15" Single-Ply, Fanfold Paper

The FillPak TT[®] converter quickly forms fanfolded kraft paper into an efficient and effective void fill material to protect products in shipment.

The converter height and head angle is adjustable and easy to rotate for ease and comfort while packing and loading paper. In addition, the small footprint of the converter allows it to easily fit into areas with limited space.

The standard FillPak TT converter includes a head, a universal stand and an exterior power supply.

FillPak TT[®]

*void fill on demand for all your
packing needs*

- **Fast** - converting speed is 60 inches per second
- **Compact** - designed for companies with multiple packing stations
- **Adaptable** - can be converted into a battery operated unit when electrical outlets are not available
- **Versatile** - can be easily configured as a floor or a table stand
- **Lightweight** - entire converter only weighs 55 lbs. making it easy to move around

Protection is in our nature[™]

Specifications

Converter (approximate measurements)*	
Head	
Width	17"
Depth	22.5"
Weight	17 lbs.
Table Stand Configuration	
Min./Max. Height**	49-59"
Weight***	43 lbs.
Floor Stand Configuration	
Min./Max. Height**	74-84"
Weight***	55 lbs.
Power	100/115 VAC, 1 phase
Feed Rate	60 inches per second
Cut Method	Manual tear
Operating Modes	Footswitch
*Size specifications refer to the converter only and do not include the converter stand or accessories	
**Min./max. height dimensions are measured with the head at its maximum tilt	
***Includes the weight of the head	

Paper Bundle				
Paper Type	Width (inches)	Basis Weight (lb.)	Length (feet)	Weight (lbs.)
