# Pad-N-Pak<sup>®</sup> Workstation

*packaging that works to keep you organized*

## Create a complete packing station with the Pad-N-Pak<sup>®</sup> Workstation

The converter for the Pad-N-Pak Workstation is a standard AutoPad<sup>®</sup> fitted with a curved chute to facilitate use with the workstation.

The converter is mounted below a packaging workstation table in one of multiple stand options. The table can be arranged to allow the pad to be fed from either the left or right side of the table.

The standard workstation converter includes an AutoPad II converter, remote box without pad counter and rear roll lifter.

- **Versatile** - several modes of operation allow for batch production or in-line, just-in-time use for most cushioning applications
- **Convenient** - converter slides in and out from under the table for easy paper loading
- **Flexible** - can use with an existing workstation table or with a Ranpak table
- **Adaptable** - multiple stand options and various accessories and customizations available

Protection is in our nature<sup>™</sup>

# Specifications

## Converter (approximate measurements)\*

Length	83"
Width	42"
Height	30-36"
Weight	625 lbs.
Power	120 VAC, 60 Hz, 10.4 Amps
Feed Rate	18 inches per second
Controls	Located on remote box
Cut Method	Electric motor with clutch
Packing Height	30-36" (chute height)
Operating Modes	Foot Pedal Automatic EDS Keypad

\*Size specifications refer to the converter only and do not include the converter stand or accessories
