

Ranpak Cushioning Systems...
the Natural Choice

PadPak[®] AutoPad[®]

*a heavyweight for
cushioning applications*

- **Versatile** - several modes of operation allow for batch production or in-line, just-in-time use for most cushioning applications
- **Adjustable** - converter is easy to rotate and is height adjustable to adapt to packing environment needs
- **Adaptable** - multiple stand options and various accessories/customizations available

Converter Creates On Demand Packaging Material for Most Cushioning Applications

The AutoPad[®] converter creates a multi-ply pad for cushioning, wrapping and blocking and bracing applications.

2 or 3-ply kraft paper is separated allowing air to be trapped inside the layers. Inside the converter, the paper layers are crimped together to form a cushioning pad.

The standard system includes an AutoPad II converter, packing station stand with casters, remote box with pad counter, swivel remote and rear roll lifter.

Protection is in our nature[™]

Specifications

Converter (approximate measurements)

Width*	34"
Height*	12"
Depth*	65"
Weight	495 lbs.
Power	120 VAC, 60 Hz, 10.4 Amps
Feed Rate	18 inches per second
Controls	Located on remote box
Cut Method	Electric motor with clutch
Packing Height**	42-62" (chute height)
Operating Modes	Foot Pedal Automatic EDS Keypad

*Size specifications refer to the converter only and do not include the converter stand or accessories

**Measured with the machine in the horizontal position

Converter Customizations

Splicing Table w/Sensor (for AutoPad w/o Tear Free Kit)
Coiler, Right or Left
Splicing Table Swivel, Front or Rear (compatible w/ Tear Free Kit)

Converter Accessories

Packing Station Table
Four Roll Queuing Cart (includes 4 roll shafts)
Six Roll Queuing Cart (includes 6 roll shafts)
Pedestal Stand for Remote Box
